Post Disaster Task Checklist

List all of the main tasks that you believe will be required after a disaster. (Note: These are tasks not listed in the Quick Start Guide but that have been identified as needing to be done, depending on the nature of the disaster and its impacts on your neighbourhood).

Assign task(s) to the person or team that has volunteered to complete it. Not all tasks may need to be completed. Check tasks off when they are done.

Task	Assigned to	Done
